Before the famous eggs, there were the

FABERGE CHICKENS

A fast paced dice rolling and set collection game for 2-4 players.

Played over 3 rounds, players roll action dice to determine the movement of their chicken in the yard, as well as the grain gems that the farmer will throw.

Each chicken attempts to eat the correct color grain gem in order to lay the most beautiful jeweled egg at the end of the game and avoid becoming Sunday dinner.

Action planning using timed dice rolling and changing board conditions offer a light fast game that is highly accessible, and will still satisfy more experienced gamers.
